Operations on Federal Structure to Be Resumed.

MORE ROOM WILL BE NEEDED

WEATHER BUREAU BOARD AND POSTOFFICE CRAMPED.

Now that warm weather has given indications of returning, work is to be process of construction at 'Main and Market streets. For several months past all work has been at a conditions, but now everything is be

in the foundation was practically completed and now the walls are ready for the stone work. For several days past the workmen have been putting the big derricks in place to handle the monster rocks that will go into the walls. These derricks have been placed at each corner and along the centers of the walls.

A force of masons has been working a portion of the day for several days cutting the big stones into proper shape and size, and the work of building the walls will progress rapidly when the constructors commence operations. Superintendent Dorsey Ash stated yesterday that he was expecting Contractor Campbell to arrive gary day and as soon as he got here any day and as soon as he got here work would commence.

Good Weather For Work.

"Work ought really to be going on now," said Mr. Ash, "for the conditions are favorable and all delay means loss of valuable time. This is good weather for bricklaying and I am anxious to see the work progress as fast as possible."

Although the new building is a large

Although the new building is a large one an examination of the plans by those who are to occupy it shows that it will be inadequate for the needs of the government offices. Mr. Ash stated yesterday that everything had stated yesterday that everything had been crowded into as small a space as possible, but that even with that there would be no place in the building for the weather bureau. Every inch of space has been taken up already and many of the offices will be crowded. It was expected that the weather bureau would be given rooms on the top floor, but there is no space left for it. This will necessitate the extablishment of the bureau in some other. shment of the bureau in some other

Little Room For Postoffice.

Postmaster Thomas also claims that the will not have as much room as he needs in the postoffice department. The plans as they now stand do not call for

ities in Washington but it was found that no remedy could be made without an additional appropriation by contress. This has not been made and gress. This has not been made and the building must go on according to plans. This fact is deeply regretted because by many it is considered only a matter of time when an addition will have to be made to the building, and this, it is claimed, will spoil the appearance of the building and not give the satisfaction that would be given should be change be made before the construction of the building.

BOYS STEAL JUNK.—Francis Parrat, aged 13, and Andrew Bui; aged 17, were strested hast night by Watchman Will 'us of the Rio Grande Railroad compary, charged with stealing brasses from the company's cars. The boys, when taken to the station, admitted the theft; and said they had sold the metal to a junk man by the name of Frazier, for whom the police are now looking.

the police are now looking.

HACK DRIVER SENTENCED.—Con Browning, a hack driver, was sentenced to three months in the county jail yesterday by Judge Diehl for breaking into a trunk and stealing about \$40 worth of goods, mostly women's wearing apparel from a barn on Second West street. Browning, when brought to trul, "peached on his pals," or, in other words, implicated two more men in the deal besides himself, who had since left the country, but his story did not have much weight with the judge, and he was given ninety days.

STRAW VOTE ON BILL.—A straw vote taken by the teachers of the public schools on the Mutual Benefit association, showed that of the 34 teachers, including City Superintendent Christeusen and Supervisors Pollock and Tomlinson, 250 are in favor of the bill which was introduced into the legislature some time ago: 159 were opposed to it and thirtynine did not vote. The vote was taken by Principal Martin for the edification of Representative Donc; to quiet the statement made to the solons that the majority of the city pedagogues were opposed to the measure.

BOYS SPOILED LUMBER.—Fred and Jumes Peterson and Ray Balley, young boys about 16 years of age, are in the county fail under \$190 bonds to stand trial for malicious mischief. It is alleged that Wednesday, while more or less under the influence of liquor, they broke into a Rio Grande Western freight car at Twelfth South street and ruined 2,000 feet of hard pine, consigned to the Granite Lumber company, by pouring oil over it. The boys opened the boxes of the car trucks, and, taking the waste into the car loaded with lumber, squeezed the oil from the packing, and then smeared the face of the lumber with the waste, it will cost the company more than \$100 to

WASHOUT ON SHORT LINE.—A washout on the Short Line near Cornish, above Ogden, blocked all trains on that line last night. The washout occurred early in the evening and the trains were unable to get into Ogden over that road last night. About 1,200 feet of the track was catried away, but the engineer on the train due in Ogden early in the evening discovered the washout in time to prevent the train being wrecked by running onto the broken track. The train was ordered back and will come in over the Southern Pacific road. The washout was occasioned by the rapid melting of the snows on the mountains, and water, it is reported, was running across the tountry near Cornish like rivers, it rushed down the side of the hills and earlied away the bed of the track like so much driftwood.

as many delivery windows as there are in the present office and it is claimed that this will cause a congestion, especially on Sundays, that will be hard to cope with. There is also no provision made in the basement for an atgoing mail department and this will an additional handicap to the mail Some time ago this matter was brought to the attention of the author-

"Magda," the strong Souderman drama presented here by Miss Florence Roberts on her first visit to Salt Lake some weeks ago, was her offering at the Salt Lake theatre last night. As

carough no rault of her own and com-pelled to make her way in the world, Miss Roberts achieved real greatness. She seemed to live and love and suf-fer as we imagine the playwright in-tended Magda to suffer, and her audi-ence suffered with her. Last night's house was large and enthusiastie. It is not measure
